Tolomatic IMA Servo Actuators

Hygienic actuators designed for Food & Beverage

The **Tolomatic IMA servo actuators** offer long life and consistent performance with multiple modifications for Food & Beverage applications.

The IMA integrates a servo motor into a ball or roller screw-driven actuator to provide efficient high force in a compact lightweight design.

- Stainless steel rod, rod end and fasteners
- Food grade white paint
- IP67 rating
- Viton seals with food grade grease

Solutions for Compressor Industry

WEG enclosed magnetic starters for compressor applications

WEG non-combination magnetic starters use WEG CWB series UL listed, HP rated, IEC contactors and overloads factory installed in a Nema 1 or Nema 4X enclosure. These starters come pre-wired for automatic pressure switch operation and are also available with a selector switch for On/Auto use. Available from ¼ to 25 HP, they are designed for years of heavy duty operation.
