

Flow Products is excited to announce that we are now an authorized distributor of Leuze Electronics, the sensor people.

Leuze, based in Germany, and with US Headquarters in New Hudson, Michigan, has over 60 years' experience in the design, development and manufacture of electronic sensors. They have become a global leader in sensor technology and product innovation.

Leuze is committed to understanding every detail of your requirements in order to provide the right solution for your specific applications and business needs. The goal is to improve operational safety, increase your productivity and profitability. This is achieved by incorporating the latest sensing technology and having highly qualified specialists offer the best solution for your application.

By working together and understanding your unique requirements along with providing a wide selection of sensors, sensor systems and custom solutions, Leuze has the answers that make the difference.

Company website
