

Winters Introduces the NEW MVA Series

We're There.

Manifolds are critical in the process and industrial environments for enabling shut-downs to test, repair and upgrade instruments.

- Designed to be perfectly installed with Winters LY36 Series (with M10x45 bolts) and other differential transmitters
- Rugged and designed for use with differential pressure transmitters and impulse lines
- Soft and Hard seat options; 6,000 psi and 10,000 psi pressure rated
- PTFE packing standard with Graphoil optional

2-handle – 1 isolation valve, 1 vent valve

3-handle – 2 isolation valves, 1 equalizing valve

5-handle - 2 isolation valves, 1 equalizing valve and 2 vent valves

2 - Handle Manifolds

3 - Handle Manifolds

5 - Handle Manifolds

3-handle - 2 isolation valves, 1 equalizing valve

3 - Handle Direct Mount Manifolds

5-handle - 2 isolation valves, 1 equalizing valve and 2 vent valves.

5 - Handle Direct Mount Manifolds

About Winters

Winters Instruments is a global manufacturer of industrial instrumentation, with distribution in over 90 countries. Since 1953, Winters Instruments has been providing pressure and temperature instruments to all industries requiring pressure and temperature measurement through its worldwide distribution network.
