## POWER UNITS FOR YOUR DEMANDING APPLICATIONS

### TAKE CONTROL OF POWER UNIT LEADTIMES

Flow Products has developed a new program for supplying hydraulic power units to the industry. Our program features a selection of engineered power units designed to meet the demands of most industrial applications. All required components are stocked in our warehouse, ready for quick assembly and test. We offer delivery for listed units of less than 1 week. Pump selection includes gear and vane type with reservoirs ranging from 10 to 30 gals.

Call us today so that we may review your application with one of our engineers. We will help select the right product for your specific application. With our technical support and quick product delivery, we can help get you back into production.

### APPLICATIONS

# HYDRAULIC POWER UNITS PROGRAM

## ALL MODELS INCLUDE

- Pressure Gauges
- Pressure Manifolds, with Built-In Relief SAE-8 "P" & "T" Female Ports
- In-Tank Return Filter
- 10 Micron Breather Element
- Three-Year Warranty

## VANE PUMP FEATURES

- Quiet Operation: 70 DbA at 1800 PSI @ 1750 RPM
- Energy Efficient: 20% Less Heat Generated
- Up to 10 Times Longer Pump Life Over Conventional Fixed-Ring Designs
- External Pressure Adjustment
- External Volume Adjustment

## GEAR PUMP FEATURES

- Case Hardened Gears for Long Life
- Higher Pressure Operations
- Self Priming
- Compact Design
- Simple Design: Fewer Moving Parts
- Operate at Lower Speeds
