

MATERIAL HANDLING SOLUTIONS

Flow  **Products**

HELPING HANDLE THE WORKLOAD

For over half a century, Flow Products has been a leading supplier of superior products to the material handling industry. We specialize in products for: forklift trucks, carriers, handlers, stackers, scissor lifts, towing and specialty vehicles. At Flow Products, we understand operator safety is paramount. We also recognize product reliability is essential for increased productivity and key to the success of any operation, so we pride ourselves in having a full range of products that meet the required performance specifications of the equipment and application. These products range from hydraulics and electronics to fluid conveyance and are from the top manufacturers in the industry. Having the right product to fit your specific application is what sets us apart. We also have a staff of engineers certified by International Fluid Power Society (IFPS) ready to assist with any design challenges.

Whether it's a single component or an engineered solution, Flow Products is ready to help elevate your vehicle's performance.
