## RELIABILITY THAT MAKES THE DIFFERENCE

Flow Products is a leading supplier to the Health & Medical market. We specialize in products used in: imaging equipment (X-Rays, CT scanners and MRI scanners), motorized tables for dental and chiropractic applications, laboratory testing equipment and vial, pill filling systems. At Flow Products, we understand the performance requirements of these applications and for over 65 years, we have been helping our customers meet these challenges.

We know product quality and reliability are essential for optimal equipment performance. As a result, we have a broad range of products that comply with industry standards and can be configured to meet specific application requirements. These products range from multi-axis Cartesian robots, stainless steel electric actuators, servo motors and sensing instrumentation – all from the top manufacturers in the industry.

### SINGLE AXIS AND CARTESIAN ROBOTS
