Flow Products

ANFIELD SENSORS INC.

Experience the Unmatched Excellence of Our TTG Mobile Temperature Transmitter!

Precision and Durability for Industrial Applications

The Anfield **TTG Mobile Temperature Transmitter** is a cutting-edge device designed to deliver accurate and reliable temperature measurements in demanding industrial environments. Engineered for precision, the TTG series is ideal for use in applications such as **mobile hydraulic systems**, **construction machinery**, and **industrial vehicles** where accurate temperature monitoring is essential for operational efficiency and safety.

One of the standout features of the Anfield TTG is its robust and rugged design, built to withstand harsh conditions including **vibrations**, **extreme temperatures**, and **exposure to moisture**.

Features

- Stainless steel construction
- Easy to install
- Robust design
- Customizable outputs per request

Applications

- Hydraulic systems
- Mobile Equipment
- Industrial machinery and machine tools
- Fan cooling circuits
